

Lost Millennials

Welcome to the first edition of the Lost Millennials newsletter, with all the latest project updates. Read on to learn more about our aims, the launch of the project website and the release of the country reports focusing on policy context addressing 25+ NEETs.

We hope you enjoy reading our first newsletter!

ABOUT THE PROJECT

The project is aiming to enhance the successful integration of 25+ NEETs into the labour market, education, and training, while at the same time improving evaluation practices of labour market initiatives targeting 25+ NEETs. Additionally, through its activities, the project aims to increase knowledge on the effects of education and/or employment initiatives and enhance stakeholders' capacity to carry out impact studies.

TARGET GROUP

The Lost Millennials project focuses on a specific group of the Millennial generation, young people aged 25-29 who are not in employment or education and training (NEETs).

TRANSNATIONAL MEETINGS

In 2021 and 2022, three transnational meetings have been held. The **kick-off event** took place online, while the first in-person meeting was held in Bodo, Norway and the second one in Burgos, Spain. During these meetings, project partners had the opportunity to participate in workshops on evaluation methods, discussed methodologies and selected initiatives.
